I pledge allegiance to my health,
to not compare myself to anyone else.
With fruits and vegetables I’ll fill my tray
and get nice and sweaty every day.
I have only this body and this one heart
so today’s the day I’m going to start
eating less chips and less sugary drinks
and before I eat I’m going to think!

I Pledge Allegiance to My Health
This pledge can be read daily at school or
at home with your family to remind you of all
the ways to take care of your body!

I Pledge Allegiance to My Health created by
Mandy Richardson, Teacher on Special Assignment
Network for a Healthy California-Hawthorne School District
One cup of salad greens provides an excellent source of vitamin A.

Lettuce was among the first vegetables brought to the New World by Christopher Columbus.

Wild forms of lettuce in Egyptian tomb paintings and written accounts of lettuce that date back to 79 A.D. all support evidence that salad greens are one of the oldest known vegetables.

In the United States, lettuce is the second most popular vegetable (behind potatoes).

Watch this video and learn about a farmer who grows salad greens!

Activity

Research what hydroponics is and how it can be better for the environment. Use the space below to write down key information.

Think about the different types of salad greens and pick your favorite. On a separate piece of paper, draw your salad green growing using hydroponics. Describe the environment you will need for your salad greens to grow. Be sure to include information like ideal temperature, amount of sunlight, and type of water.

See the Spinach Cranberry Salad recipe in Tasting Trios.
Start Smart with Breakfast

Eating breakfast helps you grow healthy and strong. A nutritious breakfast also fuels your body, giving you the energy needed to start a new day.

Breakfast is the most important meal of the day.

Breakfast helps you:
- Improve your grades
- Pay better attention in school
- Increase school attendance
- Improve classroom behavior

What makes a healthy breakfast?
You should have three or more food groups in your breakfast (grains, fruits, vegetables, dairy, or protein). It is also important to include a food from either the dairy group or the protein group in your breakfast.

Create two menus of a healthy breakfast that you plan to eat this week. List each item and the food group it comes from. You can look at the list of foods on the next page for ideas.

| Did you eat the healthy breakfasts that you created? ________

Foods Found in MyPlate

FRUITS
- Apples
- Bananas
- Blueberries
- Cantaloupe
- Cherries
- Grapefruit
- Grapes
- Kiwis
- Oranges
- Peaches
- Pears
- Pineapple
- Plums
- Raisins
- Raspberries
- Strawberries
- Watermelon
- 100% fruit juice

BREAKFAST GRAINS
- Breakfast cereal
- Brown rice
- Corn flakes
- Crackers
- Grits
- Macaroni
- Noodles
- Oatmeal
- Popcorn
- Pretzels
- Spaghetti
- Tortillas like corn, flour, and whole wheat
- Whole wheat bread, cereals, crackers, and pastas

VEGETABLES
- Asparagus
- Beans like lima, kidney, and pinto*
- Beets
- Bell peppers**
- Broccoli
- Carrots
- Cauliflower
- Corn
- Dark green leafy lettuce
- Green beans**
- Green peas*
- Kale
- Lettuce
- Potatoes
- Pumpkin**
- Radish
- Spinach
- Squash**
- Sweet potatoes
- Tomatoes**
- Turnip
- Vegetable juice
- Zucchini**

*Dairy
- Cheese
- Non-fat or low-fat milk
- Non-fat or low-fat yogurt

*beans and peas can also go in the protein group
**these vegetables are the fruit part of the plant because they contain the seeds of the plant

Beans and peas (see vegetables)
- Beef
- Chicken
- Eggs
- Fish
- Nuts like almonds, cashews, and walnuts

Protein Foods
- Peanut butter
- Sunflower seeds
- Turkey
- Veggie burger

*beans and peas can also go in the protein group
**these vegetables are the fruit part of the plant because they contain the seeds of the plant
